

COFFEE LID LADY BUG

Create your own good luck bug with this fun craft!

What You'll Need:

- Coffee lid
- Red and black construction paper
- Glue dots
- Googly Eyes
- Black marker
- Glue stick

Directions

1. Trace the coffee lid on your red cardstock and cut out the circle.

- 2. Cut the red circle in half, so you have two half circles of equal size and shape.**
- 3. Using a black marker, color black polka dots on the red half circles.**
- 4. Cut a smaller circle out of the black cardstock, but keep this circle whole!**
- 5. Using glue dots, attach the red half circles to the top flat part of the coffee lid. You can glue them so they are open or closed, showing none, a little, or a lot of the coffee lid beneath it.**
- 6. Use a glue dot to attach the black circle to the top-- wherever the red half circles meet.**
- 7. Glue the googly eyes to the black circle with your glue stick.**
